

Evaluation should ensure that our curriculum is:

- is broad and balanced, complies with legislation and provides a wide range of subjects, preparing pupils for the opportunities, responsibilities and experiences of later life in modern Britain; inspectors should not expect to see a particular range of subjects but should be alert to any unexplained narrowness in the breadth of curriculum being offered by the school
- actively promotes the fundamental British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs
- focuses on the necessary priorities for ensuring that all pupils make excellent progress in reading, writing and mathematics
- promotes high levels of achievement and good behaviour
- links to the school's system of assessment and that together they set out what pupils are expected to know, understand and do, and when
- information about what is taught in the curriculum each year is shared with parents and carers, including by meeting the statutory requirement to make curriculum information available on the school's website
- promotes tolerance of and respect for people of all faiths (or those of no faith), races, genders, ages, disability and sexual orientations (and other groups with protected characteristics⁴⁴) through the effective spiritual, moral, social and cultural development of pupils, including through the extent to which schools engage their pupils in extra-curricular activity and volunteering within their local community

SUBJECT LEADER: Lorna Pennance			
SUBJECT: Modern Foreign Languages (French)			
<i>Please note, this is an interim document to cater for the current level of the children's knowledge. This will change each year to accommodate the new learning the children will have. It has changed for the academic year 2020-2021 to accommodate for missing curriculum due to Covid-19 school closure.</i>			
Year Group	Autumn	Spring	Summer
