

# Year 1 – summer term holistic Plan

## The seaside

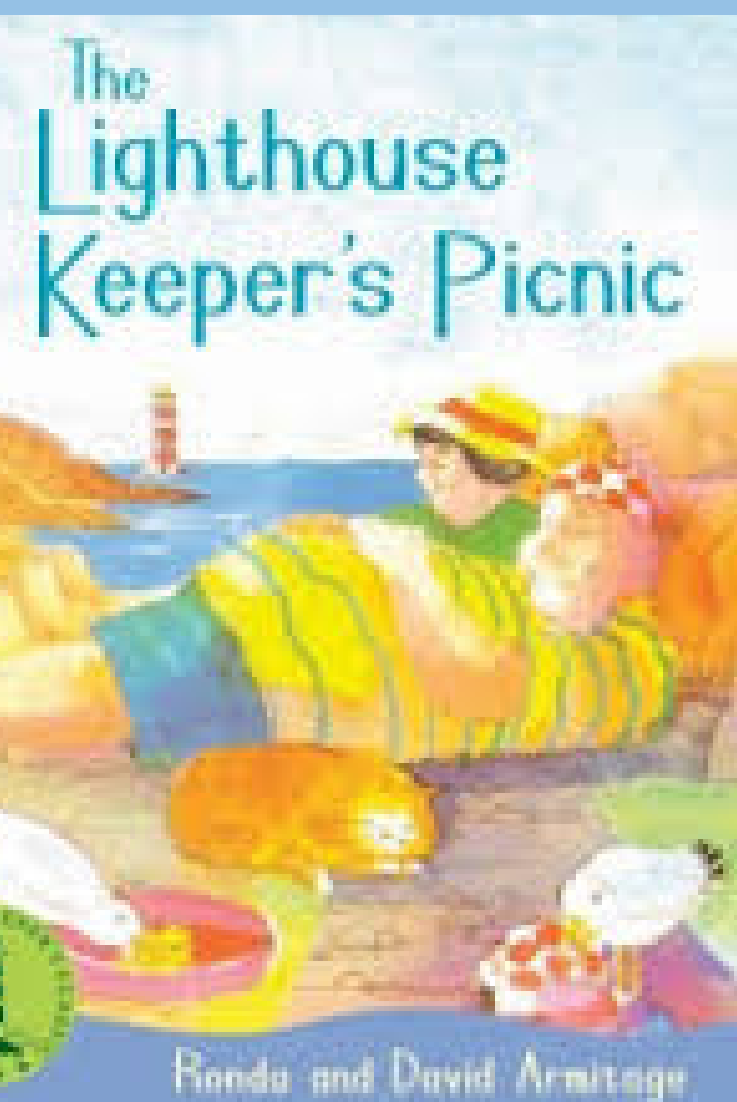

## English

Have you ever heard of Mr and Mrs Grinling? Well Y1, this term we will immerse ourselves into the story of 'The lighthouse keeper's lunch'. Using our talk for writing style, you will innovate the story using different characters and settings. You will then invent your own story in the style of the lighthouse keeper's lunch. You will also learn how to write a set of instructions on how to make your favourite sandwich.

You will be continuing on with your journey to becoming an independent and confident writer. Spelling misconception words and focusing on rereading your writing back. Does it make sense? Can I read it? Can somebody else read it? To change the meaning of certain words you will consolidate your learning of adding prefixes and suffixes to root words. You will be learning to use capital letters for names, places and days of the week. By the end of the term, you will be encouraged to use these capital letters in your own independent writing.

## Author study

We will be studying the author of David and Ronda Armitage and we will be exploring the books they have written. We will create book reviews on the books we have read. We will discuss our favourite books by them and why they are our favourite.

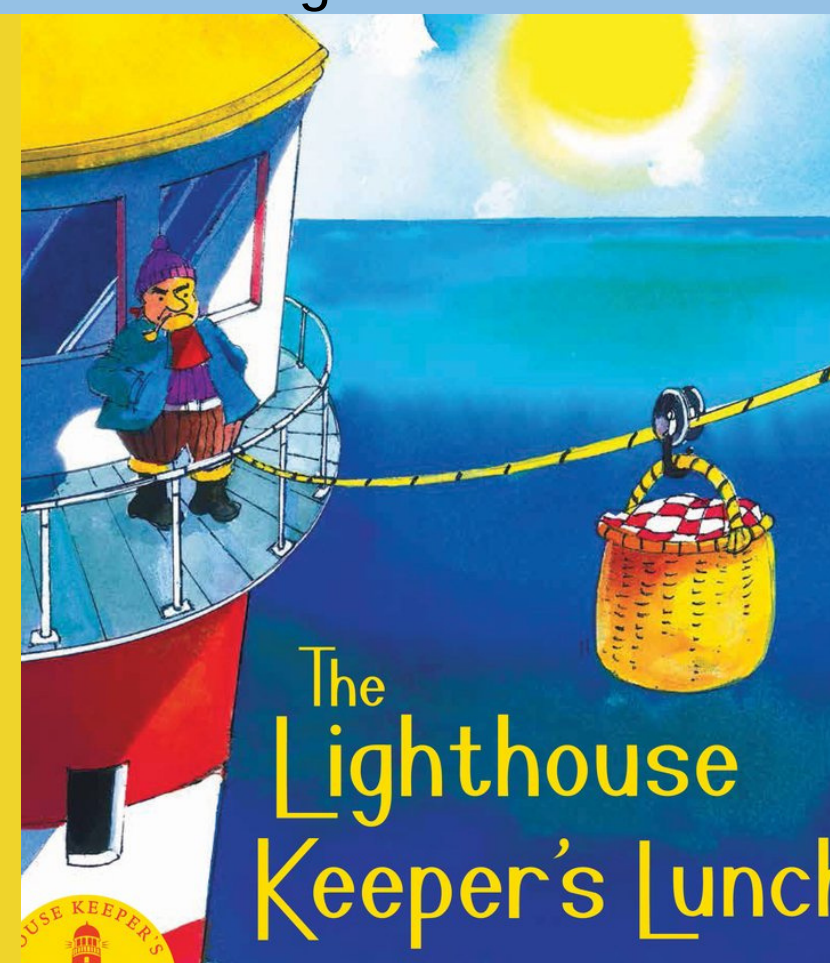

## Maths

You will be introduced to multiplication and how to use simple arrays to help you solve multiplication sums in your 2s, 5s and 10 times tables. You will then build upon this learning by being introduced to division. You will learn how to make equal groups, share amounts equally and solve seaside word problems. How is the group of children going to share their buckets and spades equally? How are they going to share their sweets equally? This will then help you to move onto fractions. You will be introduced to halves and quarters by slowly building your skills to finding  $\frac{1}{2}$  and  $\frac{1}{4}$  of quantities. Towards the end of the term, you will go back to your place value focus and you will build upon your learning by looking at numbers to 100. Can you find out how many tens and ones are in a number? You will then finish the year confidently counting and writing numbers to and back from 100.

## PSHE

**Fake is a mistake-** You will learn that being unique is important and that we are all different.

**No way through isn't true-** You will learn how to become resilient and how to keep trying when certain things become difficult. It is important you always keep hope and believe in your full potential.

## R.E

### Discipleship

Why did Zacchaeus change when he met Jesus?

### Creation

How did Adam & Eve spoil creation in Genesis?

# Science- Plants

You will learn how to identify and name different wild and garden plants. You will also be able to describe the basic structure of a plant and a tree. Has it got a trunk? Has it got leaves? We will be using our outdoor environment in our lessons so that we can explore all of the different plants we can find in our school.

Over the whole year, we have been observing the weather and changes that happen when we go into a new season. As summer approaches, we will be observing the changes that we can see outside on our school grounds. We will then compare this to our knowledge of what happens in other seasons.

## D&T

You will create your own smoothies. You will taste test different smoothies whilst using your sense of taste. You will then design and make your own smoothie that can be given to Mr Grinling. Let's hope it doesn't get pinched by the cheeky seagulls.

## P.E

**Net and wall game skills 1-**  
Children will learn how to send and receive a ball in the correct position and with accuracy. Remember to keep your eye on the ball at all times.  
**Striking and Field Game Skills 1 –**  
children are beginning to learn the fundamental skills of rounders and cricket. They learn to throw underarm, catch a ball in flight and strike accurately.

## Art

Artist: David Hockney  
Skills:  
In Art, you will look at the artist David Hockney and will learn how to create modern art using photography and large scale collage work. You will learn his technique of wax resist to create ripples in your waves.

## History

You will learn about Grace Darlington's bravery as she saved people from a storm out at sea. You will learn about the importance of lighthouses and how they have been used for a long time. You will be looking at old and new photographs of seaside towns. What has changed? Is there anything that is still the same?

## Computing

Project: PuppetPals  
Children will create their own stories using the app, PuppetPals. Children will add text, images and create their own storylines/plot. These stories can be shared online and screenshots can provide a study work page.

## Music

How can you use your voice creatively?  
You will be finding different ways of expressing your voice by singing songs, chanting and rhyming. You will further develop your skills of using percussion instruments. You will expand your knowledge of composers and musicians each month.  
Songs:  
Your imagination

## Geography

You will be taken on a journey around the world to learn about the 7 continents. You will explore cities, seaside resorts, jungles and even Timbuktu. You will compare all of the places that you visit and you will give your opinion on what you like and dislike about these places.

You will be writing postcards, exploring physical and human features, painting pictures and creating a suitcase of memories.

**But one Monday something terrible happened...**

**the lunch did not arrive!**
